

Application Instructions for Patients Applying to Use the "Oregon Medical Marijuana Act"

In order to use medical cannabis (marijuana) legally in Oregon you should do the following as soon as possible:

1. Obtain your doctor's documentation stating that "marijuana may help" alleviate symptoms. The doctors document can be a copy of progress notes or can be written on a prescription pad. This is not a "prescription" for medical cannabis- only a statement that it MAY help. If you receive any statement that you are benefiting from using cannabis in writing this is O.K. too. The doctors note must come from a physician licensed to practice medicine in Oregon.
2. Include your doctors name, address, and telephone number on a sheet of paper that is sent with the other information.
3. Print your name, address, and birth date on this paper.
4. Print the name and address of your "designated primary caregiver" if you have one, under the heading: "Designated Primary Caregiver."

All of the information should be sent to:

Dr. Grant Higginson, state health officer,
Oregon Health Division
800 N.E. Oregon St. Number 925
Portland, OR 97232.
